

**The Northern Pacific.**

branches of the Northern Pacific are twenty-five in number, with a bond issue of \$29,000,000. The record of the Northern Pacific have no right to operate branches which will not yield a surplus over operating charges. They have, therefore, decided not to ratify the existing leases of certain of these lines. The only trustee of the mortgages, the First Loan & Trust company, of New York has instituted the proper legal proceedings for the appointment of receivers to take possession of these properties. Receivers have been appointed in most of the

states in which the lines are situated, the practice being to appoint one local receiver to manage the property of one general receiver was eliminated. A despatch just announces the appointment of receivers for the lines in the state of Washington, which aggregate 100 miles. This action relieves the North Pacific receivers from the payment of the branch bonds during the reorganization.

The unfortunate Perrien was first pounced upon by a gang, hustled into a cab and brought to a lonely place where, after being subjected to ill-treatment, a considerable amount of money was extorted from him. The money was then recovered, although the attempt was made to conceal the money from the gang with the outrage. He understands a good show of being contented with the abduction as it is claimed he was in the cab on the eventful night. Perrien is wanted in St. Paul, Minneapolis, Chicago, Indianapolis and Kansas, where under various aliases, he has been known to pass counterfeit money, forged drafts and other defalcations. He is now being sought by the United States marshal at the instance of Attorney General Cummings.

The unfortunate Perrien was first pounced upon by a gang, hustled into a cab and brought to a lonely place where, after being subjected to ill-treatment, a considerable amount of money was extorted from him. The money was then recovered, although the attempt was made to conceal the money from the gang with the outrage. He understands a good show of being contented with the abduction as it is claimed he was in the cab on the eventful night. Perrien is wanted in St. Paul, Minneapolis, Chicago, Indianapolis and Kansas, where under various aliases, he has been known to pass counterfeit money, forged drafts and other defrauded or stolen property. He is now being sought by the instant of Mungas.

prisoners and was so quickly effective that the prisoner was taken completely by surprise. Other important arrests are expected to follow. Deference will be shown to Detroit before being handed over to the other state authorities. Sheriff Kinney, of Minnesota, is expected to take over the prisoner, will go back empty handed.

for the power of prohibition rests in the Dominion parliament or with the local legislature. Upon this subject my mind has not received an impression of any doubt whatever. My own view has been formed and is of opinion that the power of prohibition rests with the Dominion parliament, and I would have thought that it could be

... were it not that so great an  
... as the premier of Ontario had  
... ged that position and has asked  
... get the opinions of the courts of  
... ntry as to whether his Govern-  
... ours has the power of prohibition  
... be any benefit to have the question  
... ed in courts I am willing to join  
... m, provided that the statement  
... hich the opinion of the courts is  
... s explicit and clear upon which we

**Wrecked Sailors.**

PORTLAND, B. C., Oct. 9.—The first and eight men from the Chilian Leonor arrived here by the tugery sent to Neah Bay from Portland by Chilian Consul MacComme them. The men were in a condition, having walked from Johnson to Neah Bay almost without rest and but little to eat for three days. Their description of the wreck of the captain and crew is very startling. The vessel struck a rock on which it is thought to have been wrecked.

REAL, Oct. 5.—A number of cattle here are anxious to have the Government allow importation of live cattle for export from Montreal. At Canadian cattle are debarred to open markets in England do not see the necessity of keeping strict quarantine between and the States. A meeting will

next week to consider the matter probable that a strong deputation sent to Ottawa about it, and also government to use its influence to American authorities to have the permit Canadian cattle to be out of U. S. ports. This was done in the winter, and Canadian exporters desire the privilege again.

Dr. J. B. Brown, of the University of Chicago, performed a surgical operation upon which proved successful in relieving the pain. At midnight his son, John, reports that he is sleeping quietly. Apparently very much improved. Premier's brother, Harry Abbott, however, has been summoned to him but John Abbott states that he is not due to any critical stage of the disease and was coming east anyway. He has been brought to this city summer residence at St. Anne's.

# BRANDON MAIL.

Thursday, Oct. 12, 1893.

## NEWS OF THE WEEK.

IMPORTANT EVENTS IN FEW WORDS  
FOR BUSY READERS.

Record of the Busy Week's Happenings  
Carefully Compiled and Put in Handy  
Shape for the Readers of Our Paper.

The price of coal has been further  
advanced in England.

There is a prospect of peace being  
restored to the Argentine republic.

Dr. D. S. Rupert, of St. Mary's is  
dead. He was a well-known mason.

Benj. Waterworth, one of the best  
known residents of Middlesex county,  
is dead.

Cholera of a violent type is rapidly  
spreading in the Government  
of Kolo.

Mrs. Wm. Glendinning, one of the  
earliest settlers at Woodstock, is  
dead, aged 74.

The Rev. Benjamin Jowett, one of the  
foremost classical scholars of  
Great Britain, is dead.

Last month the deposits exceeded the  
withdrawals in the Dominion  
savings bank by \$14,022.90.

Montreal business men are petitioning  
the government to lessen the  
burden of taxation or equalize it.

Pressure is still being brought to  
bear on Mr. Gardiner to have him  
relinquish the embargo on Canadian  
cattle.

Geo. Conlin, a farmer of Montague  
township, Ont., was killed by being  
struck by a train as he was crossing  
a railway track.

John McGuire, of Orangeville, while  
attempting to board a train at Shel-  
bourne, Ont., fell under the wheels  
and had both legs taken off.

William Johnson, telegraph operator  
at Mahabery, a small station on the  
C. P. R. near Perth, was killed on  
the track a few days ago.

C. J. Howell, clerk of customs at  
Toronto, son of Hon. Mackenzie Bow-  
ell, had his ankle broken and toe  
severed by trying to board a trolley  
car.

St. Alexis orphan asylum, Mont-  
real, was damaged by fire, recent-  
ly. Loss \$2,000. The place was  
crowded, but there was no casual-  
ties.

The steamer Bannockburn made the  
trip from Port Arthur to King-  
ston in four and a half days. She  
had 61,500 bushels of wheat on  
board.

James Huddart, proprietor of the  
new Australian steamship line, is in  
London, trying to work up a govern-  
ment subsidy to his line. He expects  
to succeed.

Edith Bulwer, an eighteen-year-old  
girl of Windsor, Ont., was attacked  
by a strange man and cruelly beaten  
recently. No motive is assigned un-  
less attempted rape.

General Sir Evelyn Wood has been  
gazetted as quartermaster-general to  
the forces to succeed General Sir R.  
Biddulph, who has been appointed  
governor of Gibraltar.

There are 100,000 unemployed per-  
sons in the city of Chicago. When  
the great fair closes at the end of  
October, thousands more will be  
thrown out of employment.

The Very Rev. Archdeacon Peter  
M. Bardon, D. D., parish priest at Ca-  
yuga for the past twelve years and  
previously for a similar period  
parish priest at Brantford, is dead.

Thomas Fairgould, an employee of  
Bigley's stove factory, Queen street,  
Toronto, was killed by the elevator  
suddenly starting and crushing his  
skull between the floor and wall of the  
hoist.

Considerable interest is felt in To-  
ronto over the case of Thomas H.  
Horne, who insured his life for \$10,  
000 a couple of weeks ago and who  
died lately under circumstances  
which point to poison.

The floor of Mr. Row's house at  
Repat, Wis., collapsed while funeral  
services were being held over his  
wife. One hundred people were pre-  
cipitated into the cellar and one woman  
fatally injured.

A dispatch from Naples says that  
cholera appeared among the marines  
of the Italian ironclads Albatross and  
Italia, anchored in harbor there, and  
that both vessels sailed for As-  
sara to be disinfect.

The city assessment figures of To-  
ronto for this year show an increase  
in the assessment of a million and a  
half dollars and a decrease in the  
population of 2,517 as compared  
with last year's figures.

Three fresh cases of cholera and  
one death were reported in Hamburg  
during the twenty-four hours ended  
yesterday. No fresh cases have de-  
veloped in the suburbs. Since Sept.  
15 there have been 119 cases and 58  
deaths. The epidemic is losing  
ground rapidly.

The McCormick Implement works  
must establish in Canada this  
year or forfeit their charter in the  
Dominion. Hiram Walker offers a  
free site, exemption from taxa-  
tion, for ten years, reduced railroad  
rates, etc. Walker's offer is the  
highest out of fifty-four towns which  
were bidding, Stratford being next.

Robert McGreevey still remains in  
jail and is likely to do so until the  
14th of November, when the trial of  
Thomas McGreevey and Nicholas Con-  
nelly begins before Judge Rose. Rob-  
ert is only wanted as a witness, but  
he has proved so difficult to  
catch that the judge ordered him to  
be detained unless he furnished  
\$2,000 bail. This he has, so far, been  
unable to do.

Calverley, the Canadian high wire  
walker who was there to fill an en-  
gagement during the fair, met with a  
serious accident at the fair  
grounds, Trenton, N. J. He was  
about to start out upon the wire  
when he fell from the high stand to  
the ground, a distance of over sixty  
feet, and had both arms broken be-

sides being hurt internally. Calver-  
ley was removed to an hospital.

Alex. Ross, for many years a promi-  
nent dry goods merchant, of Lind-  
say, is dead.

While exercising a horse near Wil-  
lamston, Ont., Wm. Crawford fell  
under the animal and had his brains  
trampled out.

James Ramsay, aged 76, committed  
suicide at Brockville, by hanging  
himself. He had not lived amicably with  
his family of late.

The traffic receipts of the C. P. R.  
for the week ending Sept. 30 were  
\$605,000. For the same week last  
year were \$590,000.

Rev. Mr. Strrell, of Shillingsville,  
who has just returned from England,  
where he has been recuperating his  
health, died suddenly at Kingston.

### THE TURKS STIRRED UP.

Perpetration of an Outrage to be Punished.

Prompt action on the part of the  
United States government has compelled  
the Turkish authorities to adopt radical  
measures to avenge the outrage perpe-  
trated upon Miss Anna Melton, an  
American missionary of the Presbyterian  
board in Mosul, who was attacked on  
the night of June 14th last, while stop-  
ping in a little village in the Kooridish  
mountains, near Amadea. The latest  
phase of the matter shows that the Grand  
Vizier in Constantinople has ordered the  
removal of the governor of Mosul, be-  
cause that official did not act with sufficient  
promptitude in bringing the offenders to  
justice. After repeated demands by the  
government of the United States, several  
Amadeans are under arrest, charged with  
the crime, but their trial, for some reason,  
has been postponed from time to time.

Concerning the matter the department  
of state thus writes to the Rev. John  
Gillespie, secretary of the board, announc-  
ing the most recent developments in the  
case. Through assistant secretary of  
state, Mr. C. E. Hughes, a dispatch  
by telegraph, of the 2nd inst., from our  
minister in Constantinople, a telegram  
has been received from Mosul indicating  
that by reason of unnecessary delay in  
the trial of those accused of the attack  
on Miss Melton, the governor has been  
removed. It is stated that the Grand  
Vizier sends a new governor, duly in-  
structed to punish the guilty. The  
journey to Mosul, it is added, requires  
twenty days.

### A STIR IN CHURCH CIRCLES.

Caused by the Imposition of the Chinese  
Poll Tax on Mrs. McKay.

The imposition of a poll tax on Mrs.  
McKay, the Chinese wife of Mr. McKay,  
the eminent missionary, has caused quite  
a stir in religious circles. Because of her marriage Mrs. McKay is  
now a British subject. Church men do  
not blame the customs officials at Van-  
couver where the tax was levied. They,  
it is said, had no discretion in the matter.

Principal Grant, of Queen's College,  
said a few days ago: "Of course, the law  
that discriminates against the people of  
China is seen in its worst light when it  
operates against a British subject, a lady  
and a Christian, but it is the law. It is  
opposed to our interests and to the spirit  
of our treaties with China, as well as to  
international equity and civilization."

Rev. J. Mackie, pastor of St. Andrew's  
church, Kingston, said in substance that  
the law should be repealed. "The gates  
are open to all countries and to all creeds  
but the Chinese are a large property  
holders in Canada. It would be  
easier to Christianize the pagan if he  
were allowed free entry where he might  
compare Christianity with other religions.  
The church cannot approve of such a law  
which works for its repeal."

Deputy Minister of Commerce, Mr.  
Parnell, says he does not believe the story  
from Vancouver that a poll tax was  
charged on the wife of Missionary Mc-  
Kay. If such a tax was collected Mr.  
Parnell says it was a mistake and should  
be refunded. The threatened Chinese  
act provokes that any woman of  
Chinese origin married to a man not of  
Chinese origin is deemed to be of the  
same nationality as her husband. The  
act is clear on this point, the minister  
says, and should have avoided such a  
mistake as is reported.

### THE LADIES MAY VOTE.

It is Estimated that Female Property Holders  
May Become Dominion Voters.

The Dominion ministers have been on  
a touring expedition in Ontario, and  
have addressed large gatherings.

In a speech at Southampton, Sir John  
Thompson said he thought there was a  
probability of the franchise being ex-  
tended to women on the same property  
qualification as the men already, not  
perhaps immediately. Thompson also  
said his government would introduce a  
prohibitory measure if the royal commis-  
sion now sitting reported in favor of that  
policy.

### FORTY MINERS ENTOMBED.

Very Little Chance of Rescuing the Un-  
fortunate Men Alive.

A heavy fall of ground occurred at the  
Mansfield mine, near Crystal Falls,  
Mich., entombing forty men with but  
little or no chance to escape. The latest  
information from the scene states the  
accident occurred during the night and  
when the water of the Michigan  
river came rushing into the mine, the  
men at work were entombed like a lot  
of rats. Most of the victims were Cornish  
men and nine-tenths of them are men  
with large families.

Forty men were in the mine. Of this  
number 25 were drowned and only three  
saved. The cave in is considered a  
fifty feet in diameter and the mine filled  
with water to the river level.

### To Clean a Churn.

If the churn is first scalded with hot  
water and then rinsed with cold water,  
the cream will not stick to the sides or  
crevices and adhere to the sides. Then  
after the churning and withdrawal of  
butter and the butter milk, reverse this  
process—that is, first thoroughly rinse  
with cold water, and then scald with  
hot water, and the operation is complete.  
Keep brushes and cloths and soap of  
every description out of the churn. A  
little salt-soda in the last scalding water  
may be occasionally used with good  
results.

### Dr. Wild to Enter Politics.

Dr. Wild, the well-known clergyman,  
is said to be considering a re-  
quest to enter politics in Hamil-  
ton as the McCarthyite candidate.

## WESTERN WORLD.

MANITOBA MATTERS—NORTHWEST  
NUGGETS—COLUMBIA CRUMBS.

Collected Carefully—Given Graciously.

Mr. H. Gill has resigned his position  
of secretary of the Winnipeg Y.  
M. C. A.

Norwood bridge at Winnipeg is ex-  
pected to be completed on the 13th  
and open for traffic thereafter.

It is rumored that A. W. Ross, M.  
P., will be appointed Indian com-  
missioner in place of Hayter Reed.

Mayor Dugg, of Selkirk, expresses  
confidence that the electric railway  
to that town will be running next  
year.

Mr. M. St. John has assumed charge  
of the Winnipeg Free Press. Mr.  
Luxton's friends are moving in the  
direction of starting a new paper.

Calgary people are expecting to  
ride in electric cars next spring. A  
company is being organized and ar-  
rangements perfected for the enter-  
prise.

Mr. Chas. Lawler, of the Winnipeg  
Tribune, was recently married at St.  
Paul to Miss Grace Mellich, daughter  
of Alfred Mellich, Esq., of Chatham,  
Ont.

Rev. S. Sharpe, Methodist minister  
of Morris, has resigned his charge.  
He intends leaving Methodism with  
the intention of joining the Presby-  
terian church of the United States.

Mr. Wm. Chambers, of Dresden, aged  
105 years who is at present visiting  
in the Northwest, is to take in the  
World's Fair before returning home.  
He fought in the battle of Waterloo.

The body of an unknown man was  
found by an Indian on Flatland Is-  
land, near Port Arthur recently. The  
body was entirely naked and had  
evidently been on the beach a long  
time.

The department of the interior  
has refused to pay the Port Arthur  
mailbox account. They claim that  
the man afflicted was not an immi-  
grant and that therefore the town  
has no claim upon the department.

An interesting feature of the Soo  
line service is the order of the cars.  
Following the American plan, the  
sleeper is placed next to the engine,  
then follow the tourist sleeper, the  
dining car, first class cars and bag-  
gage.

Rev. Ralph Duff, B. A., L. B., of  
Toronto university, has been en-  
gaged to fill the pastorate of the  
First congregational church in Van-  
couver, pending the return of the  
Rev. J. W. Pelley, nine or ten months  
hence.

Commissioner Herliem, of the N.  
W. M. P., has returned from visiting  
the quarantine post at Gretna. The  
post will have to be kept up all  
winter but only two members of the  
force are there. Each has about  
eight or ten cattle to look after.

A man named Towns, who was sup-  
posed to have been murdered near  
Napanee nine years ago, has just  
been heard from in Oregon, where  
he is in good health. His wife, sup-  
posing him dead, had married again  
and now lives in the Northwest.

Mr. Margach says that he has re-  
ceived instructions to remove suc-  
cessful black boys from the lake to  
the lakes lying between it and the  
Lake of the Woods, in order that  
they may be propagated in the wa-  
ters flowing into the Lake of the  
Woods.

A Regina correspondent writing to  
the Vancouver World, says: "Jim  
Dose, the most popular man in Van-  
couver, will represent the only and  
original Nicholas Flood Davin at the  
general election, and there are peo-  
ple who do say that he will get there  
by a large majority."

The Calgary Tribune throws down  
the gauntlet to Edward Holmes, the  
crisp journalist and squire of the  
prover, his journey was frequently  
broken by ride on both train and  
hand car. The Vancouver World  
claims to have undisputed evidence  
in its possession to the same effect.

The salary of the Lieutenant-Governor  
of the Territories is \$7,000 a  
year. The Reginald Leveson says:  
"No man can do \$7,000 a year, give  
the balls and dinners and parties ex-  
pected from a lieutenant-governor, and  
above all expected from the lieut-  
enant-governor who is destined to fol-  
low Governor Royal."

Mr. Calvert, who had charge of  
the P. A. D. & W. station at Port  
Arthur, met with a painful acci-  
dent at Falcon. He was lifting a  
loaded gun out of a boat when by  
some mistake he discharged the gun,  
the shot entering the fleshy part of  
the right arm, above the elbow, inflic-  
ing a bad wound. It is not thought  
he will lose his arm.

A sad shooting accident occurred  
north of Regina lately, by which  
Collegan, a boy fifteen years old,  
lost his life. He was near the  
McDonald's farm, where he had been  
assisting at a threshing, and as his  
gun was being handed to him, muzzle  
foremost—it was discharged, the  
charge lodging in his neck. Death  
was instantaneous. The coroner, Dr.  
Low, decided that an inquest was  
unnecessary.

A dastardly attempt to wreck a  
train was discovered last Saturday  
morning. Shortly after midnight  
Engineer Gallagher was coming in  
from the east and was moving slowly  
as he had to place some cars on the  
gravel pit siding. Two ties had been  
placed on the track, and had it not  
been for them the train would have  
run over them and the ties would have  
fallen on the train, a serious accident  
would have been the result. If the  
scoundrel can be found who is guilty of  
such a crime he will be properly  
dealt with—Moosejaw Times.

Mr. A. C. Patterson, manager and  
editor of the Progress, has been sent  
to North Portal as collector of cus-  
toms. Mr. Patterson is an old resi-  
dent of Quappelle, having settled  
there in advance of the C. P. R. re-  
cently. He is a prominent and very  
much as he has always been promi-  
nently connected with every move-  
ment tending to the public welfare.  
He is a prominent conservative and  
last year was first vice-president of  
the Central Conservative association

of East Assinibola. He was elected  
to D. G. M. of the Manitoba Grand  
Lodge for Assinibola at its last meet-  
ing.

Arvilla academy, a boarding school  
for young ladies, at Arvilla, N. B.,  
twenty-nine miles west of Grand  
Forks, was totally destroyed by  
fire with most of its contents.

The mayor of Regina recently vis-  
ited the World's Fair and returned  
home via the "Soo" road. Owing to  
connections not being very good be-  
tween Regina and the terminus at  
that road, he walked the remaining  
distance home.

A packing box manufactory has re-  
cently been established at Rat Por-  
tage, by W. Jordan, of Winnipeg. A  
lot of machinery suitable for the  
purpose was put into the basement  
of the Ontario and Western Lumber  
Co.'s planing mill, No. 1, about six  
weeks ago. Since that time three  
carloads of boxes in the knock down  
have been shipped to Winnipeg, and  
about 5,000 local sales of fish boxes  
have been made—Free Press.

The boiler of the threshing engine  
owned by Frank Morris, at Teulon,  
exploded a few days back. Several  
persons were standing near by, but  
no one was seriously injured. Mr.  
Morris was somewhat scalded by  
escaping steam, and thrown some  
distance. Another man was struck  
by a piece of iron and Louis Morris  
knocked over by the force of the  
explosion, but fortunately no one  
was hurt badly.

### A TORONTO DEFAULTER.

John Leys, Q. C. Once Prominent, Skips  
Out.

John Leys of Toronto, Queen's  
counsel and ex-member of the On-  
tario legislature fled from that city  
to escape the consequences of his  
embezzlement of trust funds in the  
charge, is hiding near the States.  
Leys is sixty years of age and for  
many years occupied a high position  
at the Canadian bar, being looked  
upon as an eminent citizen. He was  
legal adviser to the Freehold Loan  
association, which position carries a  
salary of \$6,500 a year, and this,  
with his fees from other corpora-  
tions, gave him an income of over  
\$10,000. He managed several rich  
estates, and dealt much in realty  
during the boom of 1887-89, and he  
appeared to have been unblemished every  
cent of trust funds which he had  
received, and which represented  
\$158,000, has entirely disappeared  
and the Dick estate representing  
\$20,000, is also completely de-  
pleted. The amounts are supposed  
to be in the hands of Leys, but his  
denial, with his debts, to \$300,  
000 at least, and probably much  
more. Mr. Leys stated to a reporter  
that every cent of his fortune had  
been lost through real estate specu-  
lation and he had drawn upon the  
trust funds in his possession to re-  
cover himself, but they too, were  
swallowed up in the same way. He  
was too old now, he said, to atone  
for his wrong-doings and restore his  
good name, and nothing was left  
him but to get away from Canada  
and hide himself.

### BOUND BY IRON RAILS.

The Town of Port Arthur and Port Wil-  
liam Connected.

Port Arthur's Electric railway is  
now completed. It connects the  
three towns of Port Arthur, Port Wil-  
liam and West Port William, and is  
eight miles in length. Through  
trains are now running, hourly  
from the C. P. R. station.  
Port Arthur to the C. P. R. station  
at West Port William. The building  
of this railway is an interesting ex-  
periment in municipal enterprise.  
It was built, it is owned and will be  
operated by the town of Port Arthur.  
This unique having the right to  
buy one half at any time within five  
years. It is expected that connect-  
ing the three towns in this way will  
be a formidable factor in uniting  
consolidating and building upon the  
shores of Thunder Bay and the banks  
of the Kaministiquia one united city,  
which will undoubtedly be the me-  
tropolis of Algoma, the most im-  
portant and superior—the Chicago of  
Canada's Northwest.

### FROM THE SELKIRKS.

Progress of Work on the R. & A. L.  
Railway.

The clearing right of way for the  
Revelstoke and Arrow Lake railway  
has been finished and grading begins  
at once. The outfit and implements  
are arriving by both boat and train.  
This unique having the right to  
buy one half at any time within five  
years. It is expected that connect-  
ing the three towns in this way will  
be a formidable factor in uniting  
consolidating and building upon the  
shores of Thunder Bay and the banks  
of the Kaministiquia one united city,  
which will undoubtedly be the me-  
tropolis of Algoma, the most im-

### WESTERN FREIGHT RATES.

New Special Table by the C. P. R. for Grain  
and Other Produce.

The freight department of the C. P. R.  
has issued two new special tariff tables  
for grain, flour, oatmeal, mill-stuff, fax  
seed, vegetables, hay, etc., from points  
on the Edmonton and Macleod branches  
to Vancouver and New Westminster. B.  
C. and also for coal freight of like  
kind. The rate from Calgary, Inver-  
faul, High River and Macleod is 45 cents  
per 100 pounds, and from Wetaskiwin  
and Edmonton, 50 cents per 100 pounds.  
If freight is destined to Victoria or Nan-  
aimo, an additional charge of 5 cents per  
100 is made.

### A Station Fight.

Two valuable stallions, owned by Dr.  
C. L. Thudicum, of Haddonfield, N. J.,  
fought a duel to the death. They were  
known to be vicious and had been kept  
in separate fields. They got in the same  
field by accident and at once went at  
each other. Their hoofs struck terrible  
blows and the horses bit as effectively as  
zebras. Finally the more valuable stallion,  
worth \$1,000, fell and the other soon  
trampled over him. Then he made a  
dash to the victor seized his rival by  
the throat and dragged him about the  
field.

## The Big Engines at the World's Fair May Try Conclusions.

There may be an international loco-  
motive race at the World's Fair. Pub-  
lisher W. J. Arkell, of Frank Leslie's  
Weekly, has offered to give a \$1,000 cup  
to the winner of trial speed, over a course  
not less than 10 miles long, between the  
crack locomotives of England, France,  
Germany and America, now on exhibi-  
tion at the fair. Arkell has written a  
letter to George H. Daniels, general pas-  
senger agent of the New York Central,  
asking the company to enter its loco-  
motive to represent the States.

## "PROCLAMATION."

### WE HAVE THE RIGHT GOODS AT RIGHT PRICES.

Which we are desirous of turning into money and invite your inspection.

In dress goods, suitable for the season.

Challies in wools and other makes.

Lawns in plain and printed also some French materials for the warm weather.

Our Blouses in Cambric, Cloth and Muslin goods have been a decided success.

A few still on hand to be sold at prices that defy competition.

Our staple department has been kept complete.

In white cottons, grey cottons, Tickings, Sheetings, Pillow Cottons, Flannellettes and Linen Goods, etc.

**In The Gents Department.**

Our stock of ready made clothing and overcoats contain the newest styles in materials and makes.

Call and examine our worsted suits, that can be sold at two thirds the price of ordered goods.

**GENTS' FURNISHINGS.**

Hats, straw and felt, caps of a variety of materials, suitable for Lacrosse, Lawn Tennis and Base Ball clubs.

Shirts in a variety of materials and prices.

Underwear in Gauze Balbriggan, wool and other makes.

Ties in an endless variety. Collars of the latest styles.

Socks in Cotton, natural color fancy and black Cashmere, wool silk and other makes.

All goods are offered at greatly reduced prices to meet the times.

This is no clapnet advertisement but will be carried out to the letter.

Give us a call and get prices.

**PAISLEY & MORTON.**

**NOTICE.**

This notifies the public that I have purchased the tinware and stove business lately carried on by E. R. Story, including all the book accounts.

Settlement of all accounts must be made without delay. In the tinware and stove departments new additions have been made to meet all demands at the lowest prices.

## THE GREAT SOUTH AMERICAN

### NERVINE TONIC

#### AND STOMACH AND LIVER CURE

The Wonderful HEALTH BUILDER & NERVE FOOD

Chronic Diseases are caused by Deranged Nerve Centres at base of the Brain.

LATE discoveries have absolutely proven that the Stomach, Liver, Lungs, and indeed all internal organs, are controlled by the nerve centres at the base of the brain. The manufacturer of SOUTH AMERICAN NERVINE has studied this subject closely for more than twenty-five years, and has lately demonstrated that two-thirds of our Chronic Diseases, are due to the imperfect action of nerve centres, either within or at the base of the brain and not from a derangement of the organs themselves; hence that the ordinary methods of treatment are wrong.

As all know, a serious injury to the spinal cord, will at once cause Paralysis of the body below the injured part, it therefore will be equally well understood, how the derangements of the nerve centres, will cause the derangement of the different organs of the body which they supply with Nerve Fluid or Nerve Force.

The wonderful success of SOUTH AMERICAN NERVINE is due alone to the fact that it is based on the foregoing principle. The use of a single bottle of this remedy will convince the most incredulous. It is indeed, a veritable Nerve Food and Will Relieve in One Day the varied forms of Nervous Disease and Stomach Troubles.

**Nervous Diseases.**

This class of diseases, is rapidly increasing each year, on account of the great wear our mode of living and labor imposes upon the nervous system. Nine-tenths of all the ailments to which the human family is heir, are dependent upon nervous exhaustion, impaired digestion, and a deteriorated and impoverished condition of the blood.

The SOUTH AMERICAN NERVINE is a great nerve food and nerve builder and this accounts for its marvellous power to cure the varied forms of nervous disease, such as Neuralgia, Nervousness, Nervous Prostration, St. Vitus's Dance, Nervous Choking, Nervous Paroxysms, Twitching of the Muscles, Hot Flashes, Mental Dependancy, Forgetfulness, Sleeplessness, Restlessness, Nervousness of Females, Palpitation of the Heart, Sexual Weakness, etc., etc.

**In Bed Six Years**

HARTFORD CITY, Blackford Co., Indiana, June 8, '93. South American Medicine Company. GENTLEMEN: I received a letter from you May 27, stating that you had heard of my wonderful recovery from a spell of sickness of six years duration, through the use of SOUTH AMERICAN NERVINE, and asking for my testimonial. I will gladly state how I was afflicted and how I was delivered from my pain and suffering. I was near thirty-five years old, when I took down with nervous prostration. Our family physician treated me, but without benefiting me in the least. My nervous system seemed to be entirely shattered, and I constantly had very severe shaking spells. In addition to this I would have vomiting spells, and there would be from eighteen to twenty days at a time that I could not retain anything on my stomach. Many consultations were held by physicians over my case, but they all agreed to let me alone. I lay sick, my folks had an eminent physician from Dayton, Ohio, and two from Columbus, Ohio, to come and examine me. They all said I could not live. I got to having spells like spasms, and would lie cold and stiff for a time after each. At last I lost the use of my body—could not rise from my bed or walk a step, and had to be lifted like a child; at the time suffering intense pain, and taking almost every known medicine. Part of the time I could read a little, and one day saw an advertisement of your medicine and concluded to try one bottle. By the time I had taken one and one-half bottles I could rise up and take a step or two by being helped, and after I had taken five bottles in all I felt real well. The shaking went away gradually, and I could eat and sleep good, and my friends could scarcely believe it was I. I am sure this medicine is the best in the world. It was a god-sent to me, and I believe it saved my life. I give my name and address, so that if anyone doubts my statement they can write me, or our postmaster or any citizen, as all are acquainted with my case. I am now forty-one years of age, and expect to live as long as the Lord has use for me and do all the good I can in helping the suffering.

MISS ELLEN STOLTZ.

Will a remedy which can effect such a marvellous cure as the above, cure you?

A MINISTER OF THE GOSPEL SPEAKS.

PETERBORO, Ontario, June 27, 1893.

TO THE PROPRIETOR OF SOUTH AMERICAN NERVINE.

DEAR SIR,—I have much pleasure in recommending the great SOUTH AMERICAN NERVINE to all who are afflicted as I have been, with nervous prostration and indigestion. I found very great relief from the very first bottle, which was strongly recommended to me by my friends. I also induced my wife to use it, who, I must say, was completely run down and was suffering very much from general debility. She found great relief from SOUTH AMERICAN NERVINE, and also cheerfully recommends it to her fellow sufferers.

(My Signature) *Rev W S Barker*

**Sick Headache.**

Is dependent on deranged nerve centres and indigestion. Hence its cure must come through building up the Nervous System and curing the Stomach. SOUTH AMERICAN NERVINE will absolutely cure this dreaded malady and prevent its return.

**A SWORN CURE FOR ST. VITUS'S DANCE.**

My daughter, twelve years old, had been afflicted for several months with St. Vitus's Dance. She was reduced to a skeleton, could not walk, could not talk, could not swallow anything but milk; I had to handle her like an infant. Doctors and neighbors gave her up. I commenced giving her the SOUTH AMERICAN NERVINE Tonic, and the effects were very surprising. In three days she was rid of the nervousness, and rapidly improved. Four bottles cured her completely. I think the SOUTH AMERICAN NERVINE the greatest remedy ever discovered, and would recommend it to everyone.

MRS. W. T. ENSMINGER.

Subscribed and sworn to before me this May 19, 1897.

CHAS. M. TRAVIS, Notary Public.

**A WONDERFUL CURE FOR INDIGESTION and DYSPEPSIA.**

Loss of Appetite, Weight and Tenderness in the Stomach, Sour Stomach, Pain in the Stomach, Wind upon the Stomach, Nausea and Sick Stomach, Sick-Headache, Hiccough, Water-Brash, Heartburn, Vertigo and Dizziness, Sleeplessness, Frightful Dreams, etc.

The Stomach suffers more than any of the other organs from disease, because into it are taken so many indigestible and irritating substances as articles of food. In its great effort to digest these, it soon becomes weakened and diseased. Under such circumstances, it is not wonderful, that so many complain of Indigestion and weak stomachs.

When the Stomach fails to digest and assimilate the food, the whole body falls into a state of weakness and decay. For Nature has decreed that the body must constantly receive nutriment through the Stomach, to repair the waste of tissue constantly going on in the system.

**The South American Nervine**

Is probably the greatest remedy ever discovered for the cure of all Chronic Stomach troubles, because it acts through the nerve centres. It gives marked relief in **one day**, and very soon effects a permanent cure. The first bottle will convince anyone that a cure is certain.

WHAT EX-MEMBER OF PARLIAMENT, REUBEN E. TRUAX, SAYS.

I have been for about ten years very much troubled with indigestion and dyspepsia, have tried a great many different kinds of patent medicines, and have been treated by a number of physicians and found no benefit from them. I was recommended to try SOUTH AMERICAN NERVINE. I obtained a bottle, and I must say I have found very great relief, and have since taken two more bottles, and now feel that I am entirely free from indigestion, and would strongly recommend all my fellow sufferers from the disease, to give SOUTH AMERICAN NERVINE an immediate trial.

It will cure you. July 16th, 1893. (My signature) *Reuben E. Truax*

Henriette Rousseau Daily Thankful For Moderate Styles—Yet She Goes on to Describe Gowns of Bewildering Splendor. Some New Winter Wares and Cloaks.

[Copyright, 1935, by American Press Association.]

I almost feel like saying, "For what we are about to receive (in the way of fall styles) let us be duly thankful," for now that the season has really opened and we see what we are to wear we find the fashion so much more moderate than we had feared that there is reason for thankfulness. The imported gowns, the most of them direct from Worth, are held up to us as the models from which all others should be copied. And these gowns, though in many instances odd and quaint, are still very pretty and above all stylish.

One gown more curious than beautiful to my taste was of corded wool in a snuff brown, with rush green underweave, which showed in the folds as a changeable effect, and had a plain empire skirt. At the waist line there was a deep, circular band of the cloth, and this was topped by another of the same material, and both were bound stiffly with olive green velvet. Around the waist line and twice around the bust were narrow rolls of the velvet. The gigot sleeves had three stiff-

NEW FALL COSTUMES.

ened caps of threadless goods, each bound with the velvet and starting from under another roll of velvet. This dress was much admired for its daring novelty, and no doubt will be reproduced in several ways.

Another very handsome imported model gown was of changeable twill, all of wool and in two tones of heliotrope, with just a suspicion of gold and green showing as delicate bloom as it changed and shifted by movement. The skirt was a plain empire without gowns, moderately full at the bottom. The skirt had a narrow flounce all around under a heading of Persian embroidery, except on the right side, where it was cut higher to form a simulated loop. The corsage was a work of art. The back was cut straight across, without seam, and piped at the bottom. There was a white crape vest in front with lapping bands of the dress material. These were double berthaes, each bordered with Persian work. The sleeves were large zigzags confined by gathers in the middle.

Heliotrope, with quite a decided crimson reflection, is often seen in the new goods, both in wool and silk, and blackshot with violet is also shown among the novelties. But of all the shot silks and wools that with gold as one of the colors is the handsomest. It is warm and pleasing. Red and black also make a rich combination.

These goods are now being shown lavishly and as rapidly purchased in spite of hard times, for women must dress and men must weep in this instance. Among the latest importations from abroad there are several novelties in tufted effects. They are woven in such a manner as to resemble velvet, though entirely of wool. They are two-toned, and the tufts are of varied moirah in different colors, though these are generally black or very dark on lighter grounds.

There are many new lines of basket weave chevrons with tufted stripes, and these are often seen in the most striking combinations of colors, which are toned down by the tufted stripe. All the tufted goods, however, are not striped, for I noticed several where the tufts bobbed up in irregular spots. They are aptly but inelegantly styled niggerhead tufts and may resemble a lot of woolly little pates bobbing up out of a shallow pond. The chevrons have been run this season and have overstepped the bounds of their old conservative quietness. We find them now with rich changing tints and all sorts of figures made by tufted moirah, stripes, checks and snowflakes, but it makes no difference how a chevron is disguised—it is always solid value.

There are serges, too, that are disguised under the ubiquitous tuft and the changeable effect. These are all wool and are very durable. Formerly the changeable effect was wrought by silk, but it was found that the wool threads rasped the silk so that it was not durable. Moirah is as glossy as the silk and stronger. The coast guard serges are excellent for good solid use and have several new qualities to recommend them this season. They are in all the latest shades. There is a long list of wools in solid colors, and a quantity of plain diagonal wools in two tones and in solid colors. There are some exquisite printed henriettes which have flowers so perfect that one feels like smelling them. The flowers are often seen in Cheney silk designs with that same mysterious hazy outline.

There is also another new goods, called Scott's cloth, in dark colors or neutral shades. It is rough, rugged and coarse, but firm, and a costume of this would be very stylish and also useful. It is a species of tweed, and it is said to be made of wool. It is also displayed as a novelty, and there really seems to be no limit to the variety, but there always has been and always will be one

yourself near his business office during business hours. To refrain from calling and renewing old ties, for fear of disturbing him, would be foolish and unkind. He would be wounded should he know you and done this. Life is too short and friendship too precious to neglect such occasions. But for the sake of that friendship and in the name of common sense, let us beg of you to avoid the foolish phrases I have quoted when you call, and to make your call brief and spirited and bring it to a pleasant climax without lingering farewells or doorway loitering. Explain his brevity by your own lack of time. This shows your friend all embarrassment, makes your exit graceful and leaves an agreeable memory for both.

ELSA WHEELER WILCOX.

Child and Nurse.

It is a perpetual surprise to any observing mind that well bred parents leave their children to the continual companionship of persons with whom they themselves would not think of associating. An eminent scientist has stated that a child learns more during the first five years than it does all the rest of its life. Yet that most receptive period, when every impression is a lasting one, many children spend almost entirely with a servant. The trouble does not lie in the fact that she is a servant, but that servants are, as a rule, ignorant and superstitious, uneducated in mode of thought, conversation and customs. The most honest and trustworthy of the ignorant class will unavoidably inoculate the child with unmanly forms of speech and unrefined habits, every one of which has to be painfully exterminated at a later stage of growth, while many hired nurses are not even honest to their charges.

It is no uncommon thing to see in the public parks a nurse dragging about by the arm a young child, raining blows on its ears and face and threatening it loudly with battle, murder and sudden death. Is it any wonder that the little creature, buffeted thus early and taught by example all the violences of uncontrolled temper and the crooked means of explaining away unpleasant consequences, learns to strike, disobey, speak falsely and utter untruthful phrases? It is through the imitative faculty that a baby begins to learn, and if its first examples are servants the resulting bad manners and consciousness are the fault of the parents who leave it exposed to such influences. The owner of a valuable horse would not think of lending it unless positive that the borrower was in every respect worthy to be trusted with it, but fathers and mothers hand over their children to the night and day companionship of a foreign peasant without a qualm of uneasiness. Parents who will neither take the trouble to secure a gentle and refined woman to take charge of their little ones or give up a part of their own time to that duty deserve to have disagreeable and ill bred sons and daughters, and usually receive their desert. But it is cruelly hard on the children.

**WOMEN'S CLUBS.**

A New One Needed Where Frivolity May Be Practiced.

It would be rather a good thing if somebody would start a new women's club. At first thought it may not seem that another women's club is the crying necessity of the hour, since they have been multiplying so rapidly of late that the country rings with the sound of the gavel. But none of those now in existence seems to quite fill the place for women that men's clubs do for men. When a man joins a club, he does so for the sake of having a place where he can relax from the cares of business. He goes there to read, smoke, meet his friends and converse. But when women form an association of the sort they always establish it on the intellectual improvement basis.

Intellectual improvement is an admirable thing and very necessary indeed, but one is tempted to think that women have almost enough social organizations for that purpose just now, and that it would be rather refreshing to see a women's club formed for the sole purpose of having a "good time"—a club where the busy mistress of a household, slipping out of the domestic harness for a little while, could drop in to see her acquaintances and not feel herself left entirely out of the reckoning if she had not spent all her leisure since the last meeting in studying up the subject of the minor Russian poet or the political economy of the Aztecs; where the newspaper woman, coming in for a little rest among her friends, would not be compelled to carry her journalistic work along with her and talk shop or listen while others talk it; where the woman artist would not be expected to find distraction in the discussion of art; in short, where busy women would be able to find an entire change of atmosphere and forget their work for a few minutes.

There is nothing like a little wholesome frivolity now and then, and if we make our play so much like our work the tired brain cannot tell the difference. It is not so very useful, after all, the exchange of a chair at a desk or easel for one wedged among 100 others in an airtight room, where one may not speak to one's neighbor under penalty of the gavel, and where one must listen patiently to the perhaps prosy setting forth of a subject that possibly does not interest one by a person quite likely misguided at public speaking. One almost longs for a general revival of the old fashioned swing circle, where women drank their tea and moved about and conversed unrestricted. We know more than our grandmothers did about many things, but we do make some mistakes.

Brass pins were first made by the Saracens in Spain in A.D. 800; were brought to England by Catharine of Arragon, wife of Henry VIII.

Wooden railroads were built in England in 1825; iron rails were first used in 1826; the first iron railroad was laid in America in 1827.

The magnifying lens is believed to have been known to the ancients, but in modern times was brought into use by Roger Bacon in 1262.

**WOMAN'S WORLD IN PARAGRAPHS.**

The Antiskirt Crusade Is Moving on at Last.

For the first time there are real signs that after awhile, perhaps even so soon as the beginning of the twentieth century, woman will be released from the terrible bondage of long skirts outdoors. Physical culture for ladies started in the ball room, and bicycle riding among our sex has given it a kick that has sent it forward half a century. I am certain that it will not be many years before women bicycle riders will spin along on their wheels wearing the Turkish trousers and leather leggings already adopted for that purpose by Mrs. Lizzie Cheney Ward, a gymnasium teacher of New York city. The trousers are made full and gathered in below the knees, where the leggings meet them. At the top they are buttoned to a shirt waist, the buttons being concealed under a belt or bodice. With the addition of a natty little cap and bicycle shoes Mrs. Ward is equipped for travel and can fly along with swiftness without danger of overfatigue of tangling her skirts in her wheel and getting a fall. She rides through Central park day after day, her husband usually being with her. Perhaps it is owing to this that that frightful demon of timid countenances, the small boy, seldom annoys her. So light and convenient is the costume that Mrs. Ward has taken to wearing it in the house as well as on her wheel. She only longs for the day when women will be permitted without molestation to wear just such a dress in the street and wherever they need to do walking. In walking a woman's skirts bind her so that she must wear them, just so long as she cannot walk as fast as she must drag the demoniac petticoats through dust and mud or pin her arms and expend her strength holding them up. They are a waste of dress material and positively hurtful besides. For the house they are well enough; also for those who wish to wear them all the time. But may a merciful civilization speed the day when women who don't want to wear them, but want free use of their feet and legs, can dress in suitable garments without being mobbed or gaped!

Men who favor dress reform can be of incalculable aid to it. Only for men and boys indeed women could even now wear what dress they pleased in the street without fear of annoyance. It is not women mobs they have to dread. The man who believes in short dresses for women outdoors can accompany his wife, daughter or sister in a gymnasium suit on walks or bicycle trips and show by his presence a protecting care that he at least approves of the antiskirt crusade. More men do approve of the short dress than most people have any idea of.

Low walking skirts are the badge and sign of physical and mental bondage.

The house of representatives in far-away New Zealand has passed a bill giving suffrage to women, not only white women, but also to the native Maori women.

Let no sentiment enter into business matters and appointments, even in favor of your own grandmother. Business is business; sentiment is sentiment.

Elect women on school boards whenever it can be done. Our American school boards have fallen into the control of saloon keepers and political barons to such a degree that only women or the Almighty can rescue them. The accounts written by Dr. Rice in The Forum concerning our American public schools show that in some respects they have degenerated instead of keeping up with the times. That children may grow to be intelligent, moral, courteous men and women is a matter nearer to the hearts of mothers than of anybody else. Ladies, see that our sex is represented, and worthily represented, on your school boards.

Keep every promise you make, fulfill every contract and be where you say you will be exactly on time. This stamps you as a businesslike woman.

The best paying building association in Arkansas was organized by a woman and chartered in June, 1880. A woman was secretary of it for nine years. St. Louis has a thriving building association entirely managed and officered by women.

Statistics show that women and girls are more regular and persevering in paying their building and loan association dues than men are. If only these faithful women and girls had more money with which to pay their dues!

Mrs. Lydia Bradley has founded a school for learning watchmaking at Peoria, Ill. It is called the Horological institute. The best point about this school is that it is open to both sexes. Women's delicate fingers seem especially well adapted to the light mechanical work of watchmaking.

Miss Margaret Brainard does a fine business by shipping early violets, daffodils and jessamines from her Mississippi home to the northern states in spring.

A California widow is educating her four boys off the proceeds of a farm of 36 acres which she had set in prunes, cherries and apricots several years ago. She attends to all the pruning of the trees herself and is her own foreman.

One lady in California has two farms—one of 10 acres, the other of 12. From the apricots, cherries and vegetables which she raises on these two patches of land she gets an income of \$5,000 a year. Is not that better than clerking for some man at \$1 a week?

While women have known their ability equally with men to receive the higher education, they have not as yet demonstrated their ability to make as much out of that education financially as men do. Women are behind men in respect to the development of financial ability. This is needed fully as much as a higher education. The evolution of the talent for money making—honest and honorable money making—is something to which present day working women need to bend all their energies, so that in years to come they may be pecuniarily independent.

**GLADSTONE TO BLAKE.**

RISH DAY AT THE WORLD'S FAIR.

Letter From the G. O. M. to the Hon. E. Blake Read at the Gathering.

A few days ago what was known as "Irish Day" was celebrated at Chicago. There was a large gathering, and the exercises throughout were marked with the greatest enthusiasm. A large number of eminent speakers addressed the assembly, among them being the Hon. E. Blake. On coming forward to address the gathering, he received a flattering endorsement of his patriotic course in leaving his Canadian home to fight for Ireland in the British parliament. Mr. Blake said: "A few weeks ago, after seven years of struggle on new lines and a debate in parliament more severe and prolonged than any which have preceded it you have seen the people's house of parliament pass a measure of some rule by a sufficient majority. We may expect to see it a law at no distant day." In conclusion Mr. Blake read a most important letter from the great orator, written to him on the eve of his departure for America. The letter was read for the first time in public, and created great enthusiasm. It is as follows:

White Hall, Sept. 2, 1892.

Dear Mr. Blake,—I learn with great pleasure that there is to be an Irish day during the World's Fair at Chicago; nor am I less satisfied to know that you have undertaken to attend the gathering on behalf of the Irish people and of their representatives. There could not be a more interesting nor (except the day of final victory) a more encouraging occasion. Of the several years of close and sustained struggle throughout the country, a house of commons was elected last year while the close of next week the bill will be rejected by a large majority of the House of Lords we shall know, the people of Ireland will know, the world at large will know, and even the House of Lords, that the rejection will mean more than a dilatory vote. You are about to address Americans who in all ranks and in all parts of the magnificent country, who have shown an active and almost universal sympathy with Ireland and more especially Irish Americans, through whose energy and inexhaustible affection for Ireland, has been effected the most remarkable and rapid migration ever known in the history of the world. And you are in a condition to point out to them these two things: First, the distance which has been travelled over between the physical misery and physical depression which marked the early years of the country, and the victory recorded last night by the immortal second, the distance between that recorded victory and the final investment of Ireland with full self government control over her domestic affairs, that is not only measurable but short. It was unanswerably observed during the debate that the recent success had been brought about by a change of opinion where active and almost universal sympathy with Ireland and more especially Irish Americans, through whose energy and inexhaustible affection for Ireland, has been effected the most remarkable and rapid migration ever known in the history of the world. And you are in a condition to point out to them these two things: First, the distance which has been travelled over between the physical misery and physical depression which marked the early years of the country, and the victory recorded last night by the immortal second, the distance between that recorded victory and the final investment of Ireland with full self government control over her domestic affairs, that is not only measurable but short. It was unanswerably observed during the debate that the recent success had been brought about by a change of opinion where active and almost universal sympathy with Ireland and more especially Irish Americans, through whose energy and inexhaustible affection for Ireland, has been effected the most remarkable and rapid migration ever known in the history of the world. And you are in a condition to point out to them these two things: First, the distance which has been travelled over between the physical misery and physical depression which marked the early years of the country, and the victory recorded last night by the immortal second, the distance between that recorded victory and the final investment of Ireland with full self government control over her domestic affairs, that is not only measurable but short. It was unanswerably observed during the debate that the recent success had been brought about by a change of opinion where active and almost universal sympathy with Ireland and more especially Irish Americans, through whose energy and inexhaustible affection for Ireland, has been effected the most remarkable and rapid migration ever known in the history of the world. And you are in a condition to point out to them these two things: First, the distance which has been travelled over between the physical misery and physical depression which marked the early years of the country, and the victory recorded last night by the immortal second, the distance between that recorded victory and the final investment of Ireland with full self government control over her domestic affairs, that is not only measurable but short. It was unanswerably observed during the debate that the recent success had been brought about by a change of opinion where active and almost universal sympathy with Ireland and more especially Irish Americans, through whose energy and inexhaustible affection for Ireland, has been effected the most remarkable and rapid migration ever known in the history of the world. And you are in a condition to point out to them these two things: First, the distance which has been travelled over between the physical misery and physical depression which marked the early years of the country, and the victory recorded last night by the immortal second, the distance between that recorded victory and the final investment of Ireland with full self government control over her domestic affairs, that is not only measurable but short. Joe Hess, the ex-pugilist and temperance lecturer died at Clarendon, New York, of paralysis on Oct. 4th.

Brakeman W. Fawcett was killed instantly coupling cars at Yorkton on Sunday morning.

A little three year old daughter of S. Watson, Rapid City, was burned to death Sunday by pulling a lamp off the table, her clothes catching fire at once.

A lot of prairie chickens recently seized by the game guardian at Rapid City were sent to the Brandon Hospital.

Hugh Lockhart, of Daly, has an average of 24 bushels of wheat to the acre.

The Yankee yacht defeats the Valkyrie in the great race at Highland, New Jersey, and is therefore the champion in its class.

T. G. Ross of Saskatchewan had an average of 36 bushels wheat to the acre and his neighbor 30. This is the largest we know of yet.

A Brandon carpenter named Wilson was considerably hurt about the head and face last week, while working at the mill at Rapid City.

The yield of wheat at Alexander is 13 bushels to the acre; 15 at the Brandon Hills; at Beaver Creek 18 bushels.

A Barabordo boy named Buckmaster committed a criminal assault on a four year girl at Russell last week, and came near being lynched for it. He is under arrest.

The readings of Sara Lord Bailey were even more popular with the audience than the musical programme. The variety of her readings with the sudden change from grave to gay with touches of pathos and passion between remind one of Mrs. Scott Siddons at her best.

English Spavin Liniment removes all hard, soft or calloused lumps and blemishes from horses, blood spavins, curbs, splints, King Bone, Sweeney, Stiles, Sprains, Sore and Swollen Throat, Coughs, etc. Save \$50 by use of one bottle. Warranted the most wonderful Blemish Cure ever known. Sold by N. J. Halpin, Druggist.

The Winnipeg Tribune is already at it trying to make capital against the Free Press because the C.P.R. owns it. Well have not the C.P.R. as good a right to own a paper as Greenway & Co. have, and the public will know the Greenway people own the Tribune soul, body and bones. The ownership of a paper counts for nothing it is alone on its utterances a paper should be judged.

There is scarcely a week that we are not asked to publish long reports or notices of meetings by parties or societies who get what printing they want for those meetings done at the job printing office. For the future we want all these parties to remember these notices will go into the waste basket. If the job office is to do the printing, let it do the full reporting also. We want it understood this will be our rule for all time.

Rheumatism cured in a day.—South America Rheumatic Cure for Rheumatism and Neuralgia radically cures in 1 to 3 days. Its action upon the system is remarkable and mysterious. It removes at once the cause, and disease immediately disappears. The first dose greatly benefits. 75cents. Sold by N. J. Halpin, Druggist.

Mr. Lewis J. Gordon, advance agent for the Big Bonanza Co. was here on Monday in the interests of his company. The Big Bonanza Co. come highly recommended by the Press, the Winnipeg Free Press giving several interesting accounts of Professor Martens' wonderful mind reading feats. Minnie Martens is also very favorably noticed, her great magnetic strength having gained her the title "The Georgia Wonder". With Chas. Kelly to strengthen the combination, popular prices, and the Foresters busting its business we are sure as we hope that the series of entertainments will be a success.—Com.

Mrs. Lindsay has leased the Royal hotel at Chater.

The Russell section has over 20 bushels of wheat to the acre.

Wheat is moving rapidly at Rounthwaite, as many as 14 cars in a day.

The average yield of wheat around Virden is ten bushels.

Telegraph offices are now open at Winkler and Beresford on the C.P.R.

Mr. Colwell, C. P. R. baggage, and Mrs. Colwell have left for the World's Fair.

Jno. Lapoint, an old time barber, has reopened in F. B. McKenzie's brick block.

The residence of G. Phillips, Elkhorn, was destroyed by fire Monday night. Loss about \$700.

Newton and Martin, merchants, Rounthwaite, have dissolved partnership. Mr. Martin continuing the business.

Dr. Spencer who was under the weather for a few days is now on deck again and attending to business as before.

A farmer's dog who thought Dr. Roche of Minnedosa was to frequent in his visits tried to make a meal out of the Doctor's leg.

Mr. Dempsey and Mr. Tranter are recovering at the hospital.

Mr. J. C. Sinclair is on a trip to Chicago, Duluth and other points on business and pleasure.

Estevan is booming again. It is made a divisional point on the "Soo" line; its coal mines are in active operations and it has concerts and weddings galore.

All subscribers at Griswold can pay their arrears into the hands of Mr. V. his postmaster, who has the accounts. His receipts will be acknowledged by us.

The papers say there was a partial eclipse of the sun Monday. As far as this section is concerned it was eclipsed all day—by clouds.

A smoke in H. R. Cameron's chimney brought out the fire brigade the other day. It was however only a smoke and the small boys took it in and went back in disgust.

Mrs. Matthew Rae's Great Farm-stock Implement and Household Sale on Friday October 13th commences Sharp at 1 P. M. South Half 4-11-17. One mile west of Danyers. A years credit to W. H. Hooper, Auctioneer.

Itch on human and horses and all animals cured in 30 minutes by Woodford's Sanitary Lotion. This never fails. Warranted by N. J. Halpin, Druggist, Brandon.

Mr. Elliott, of Carnduff, has been sent to Regina for interfering with the Northwest Mounted Police, while arresting a man some days ago. It is generally thought he has been much wronged in this matter.

It has leaked out that the STAR Almanac of Montreal is to be even larger and greater than last year's, consisting of no less than four hundred and fifty pages. Before the publishers have issued a single announcement there has sprung up a great, spontaneous demand for it.

The Provincial Teachers Association meets here in the City Hall on Thursday and Friday of this week. This will be a good opportunity for parents and all interested in Education to learn what is being done in the schools of the province. Everyone will be welcomed to the meeting's both morning and afternoon.

The Honorable G. E. Foster, Finance Minister and the Honorable A. R. Angus, Minister of Agriculture will hold a reception at the Council Chamber City Hall at 3 p. m. on Saturday, Oct. 14, when they will be pleased to be interviewed upon the question of the day.

Owing to the drop in wheat the Brandon markets are quiet. Considerable grain is still being stored. About 48 cents is the highest paid. Hay is selling at \$7.00; potatoes at 35 cents; wood \$3.50; butter and eggs in good demand and prices round.

A Public meeting will be held in the City Hall at 8 p.m. when the Honorable Foster and Angus will give an address on the Tariff and other leading questions of the day. The ability of the gentlemen as public speakers will we have no doubt secure them a large audience. The gallery will be reserved for ladies.

Mr. Thos. Styles died at the hospital Thursday, and was buried Friday in the cemetery. Some days before while working on a building for Mr. Curtis, he fell from a scaffold in a fit of dizziness. His fall was a very heavy one paralyzing the lower portion of his body. Dr. Fleming did all he could for the unfortunate man but to no purpose. He has a brother and other relatives in the city.

At Souris a sad accident occurred through which James Herriot's youngest child lost its life. The little one was playing near the mill pond when it fell into the water and before anything was known about the accident life was gone although the water was not deep enough to cover the body. The child was only two years old but the sad event has cast a gloom over the community, this being the first drowning accident in Souris.

The Family Medicine.

Trout Lake, Ont. Jan. 2, 1890. Dear Sir—For a number of years I have used and sold your "Dr. Morse's Indian Root Pills." I consider them the very best for "Family Use," and all my customers speak highly of them. Yours truly, R. Lawson

Low Rates to Chicago.

The Northern Pacific Railroad announces some extremely cheap excursion rates to Chicago and return for the benefit of World's Fair visitors.

Tickets on the basis of one fair for the round trip will be on sale at the Northern Pacific office on Monday, July 24th, 31st and Aug. 7th, limited to return from Chicago on trains leaving that city either four or eleven days from date of sale. For further particulars call at Northern Pacific Ticket office.

For Over Fifty Years

Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children while teething. If disturbed at night and broken of your rest by a sick child, suffering and crying with pain of cutting teeth, send at once and get a bottle of "Mrs. Winslow's Soothing Syrup" for children teething. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures diarrhoea, regulates the stomach and bowels, cures Wind Colic, softens the gums and reduces inflammation, and gives tone and energy to the whole system. "Mrs. Winslow's Soothing Syrup" for children teething is pleasant to the taste and is the prescription of one of the oldest and best female physicians and nurses in the United States. Price twenty-five cents a bottle. Sold by all druggists throughout the world. Be sure and ask for "Mrs. Winslow's Soothing Syrup."

The Summer Death Rates.

The greatest evidence of the dangers of Cholera Morbus, Diarrhoea, and Dysentery, is the increase in the death rate of all the leading cities during the summer months. Men and women cannot be too careful of their habits of life during the heated terms, and particular attention should be paid to the diet of children. A supply of Perry Davis' Pain killer should always be at hand, for it is the only medicine that can be relied on at all times as safe, sure and speedy. A teaspoonful will cure any ordinary case; but in severe attacks it is occasionally necessary to bathe the sufferer's stomach with the Pain Killer. All reputable druggists have it for sale. 25c. price per large bottle.

Pipe Smokers.

You may be satisfied with the brands of tobacco you have been using for years. Grant it; that you are satisfied. As there is always room for improvement, we ask you to try our Old Cut Pipe, or cut smoking tobacco, and we believe you will be better satisfied. In any case a trial won't hurt you. Don't delay upon the order of buying, but buy at once. Aug. 18 ad.

High Healing Powers care possessed by Victoria Carboli Salve. The best remedy for Cuts, Burns, Sores and Wounds.

ALL MEN

Young, old or middle-aged, who find themselves nervous, weak and exhausted who are broken down from excess or over work, resulting in many of the following symptoms: Mental depression, premature old age, loss of vitality, loss of memory, bad dreams, dimness of sight, palpitation of the heart, emissions, lack of energy, pain in the kidneys, head-aches, pimples on the face and body, itching or peculiar sensation about the scrotum, wasting of the organs, dizziness, specks before the eyes, twitching of the muscles, eyelids, and elsewhere, bashfulness, deposits in the urine, loss of will-power, tenderness of the scalp and spine, weak and flabby muscles, desire to sleep, failure to be rested by sleep, constipation, dulness of hearing, loss of voice, desire for solitude, excitability of temper, sunken eyes, surrounded with LEADEN CIRCLES, only looking skin, etc., are all symptoms of nervous debility that lead to insanity unless cured. The spring of vital force having lost its tension every function wanes in consequence. Those who through abuse, committed ignorance, may be permanently cured. Send your address for book on diseases peculiar to man, sent free, sealed Address, M. V. LEBON, 24 Macdonnell Ave., Toronto, Ont.
